

Hackernews Exploration with Data Studio

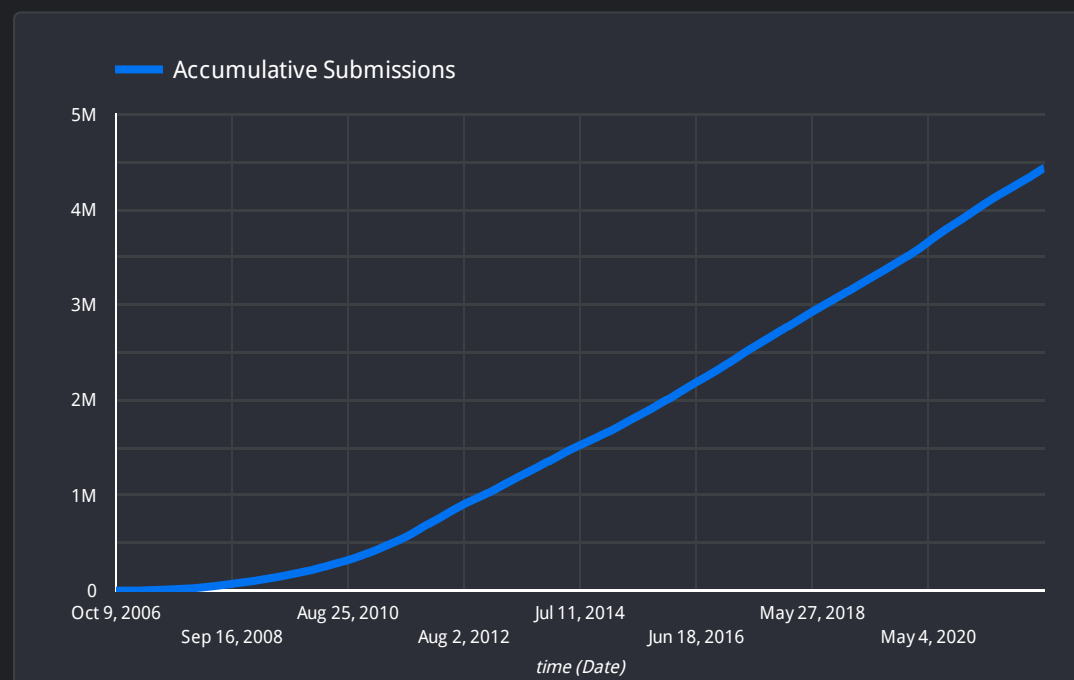

- This Data Studio Report contains visualizations describing the publicly available Hackernews BigQuery Dataset
(bigquery-public-data.hacker_news.stories `)

How many submissions per day?

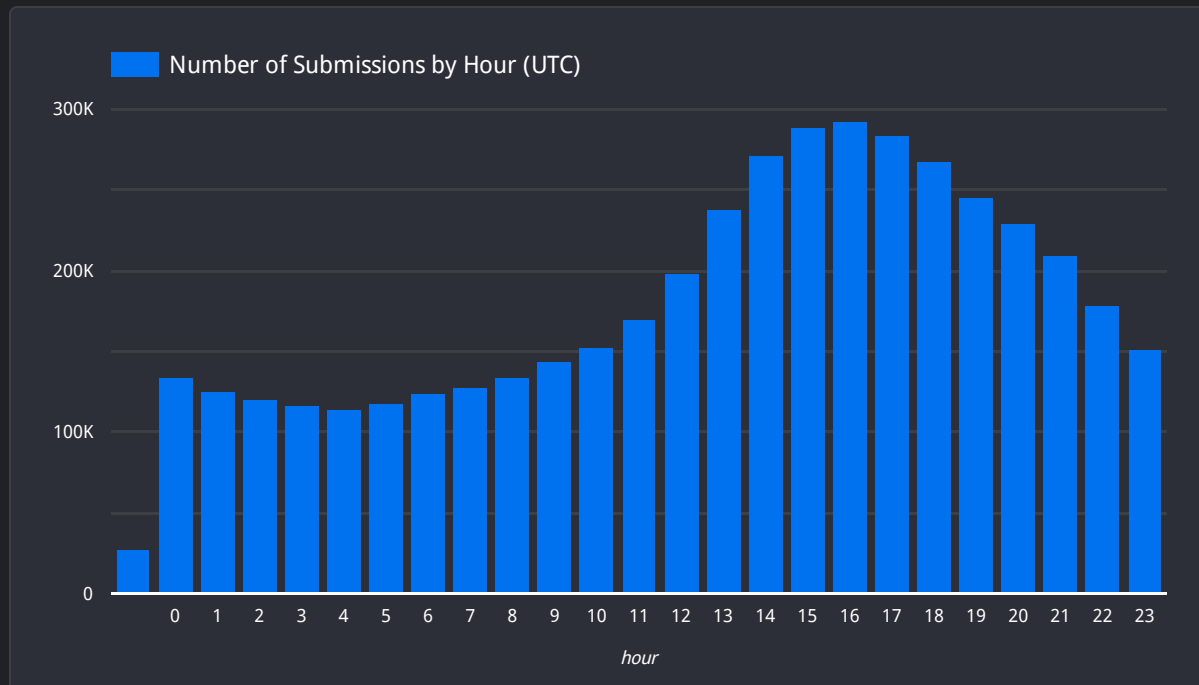

Submissions are consistently between 500-1500 a day.

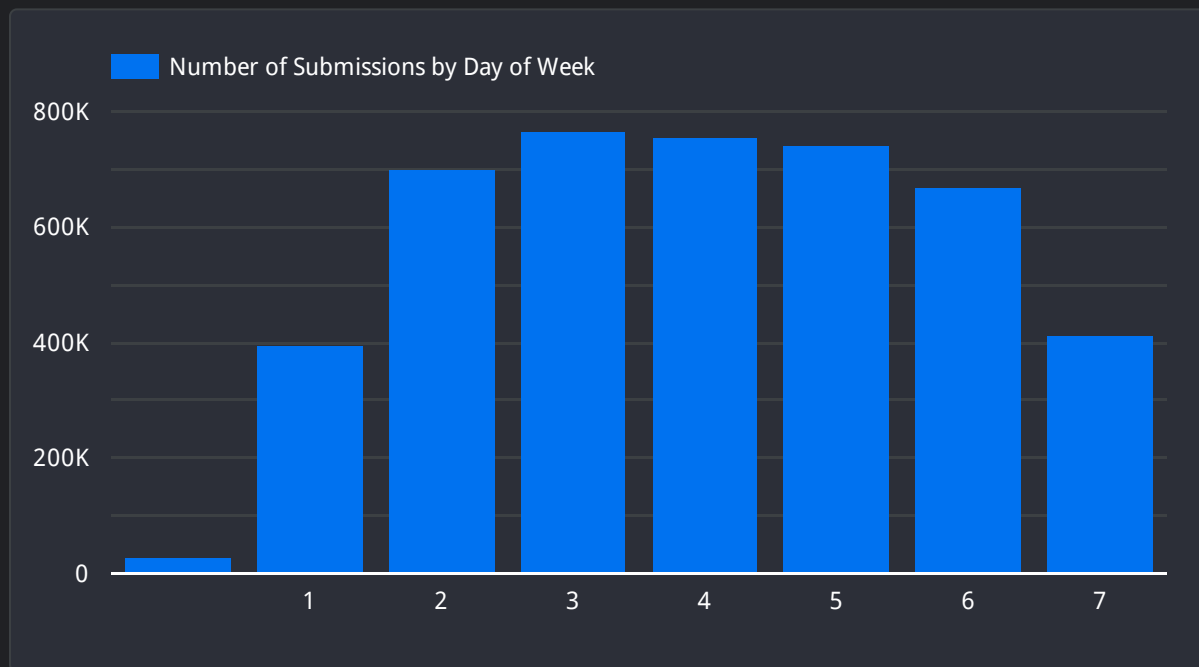

Accumulative number of submissions grows linearly because the submissions per day is constant.

When are submissions created?

Submissions are most common in [15,17] UTC which is 10AM-1PM EST.

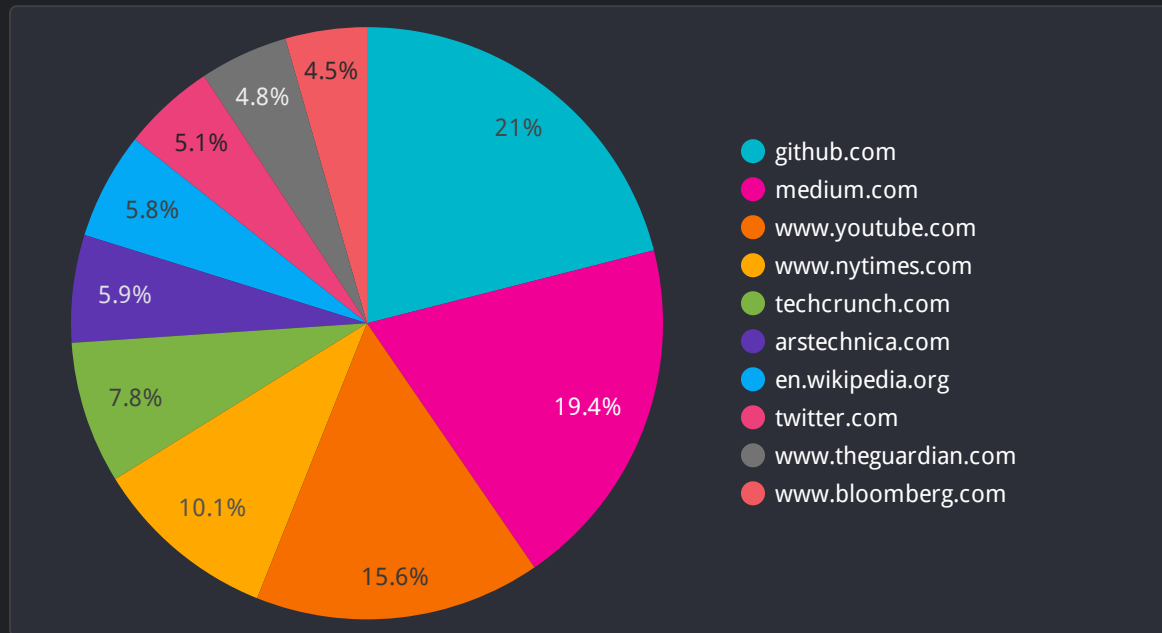

Submissions are more common on weekdays than weekends

1 == Sunday, 2 == Monday, ..., 7 == Saturday

Who are the most popular submitters and urls?

Most popular domains with at least 25000 submissions

Links to Github are most popular, but news sites dominate

	Submitter	# of submissions
1.	rbanffy	25,253
2.	Tomte	17,466
3.	tosh	14,366
4.	jonbaer	13,194
5.	pseudolus	12,797
6.	ingve	11,743
7.	evo_9	9,103
8.	prostoalex	8,642
...

1 - 100 / 376043

Links to Github are most popular, but news sites dominate
